▮ **SMALL BUSINESS DEVELOPMENT CENTER GUIDELINES FOR ENTREPRENEURS OR START-UPS SEEKING CAPITAL**

The material presented on pages 47-48 is a courtesy of the local Small Business Development Center (SBDC) at Buffalo State College. Although the process may appear complicated, as a federally sponsored agency, the SBDC at Buffalo State College is able to provide free one-on-one assistance to entrepreneurs. If you have any questions, or would like to schedule an appointment, contact the SBDC at 716-878-4030. Additional information on the SBDC can be found on page 20.

**BUSINESS PLAN CONTENTS**

Developing and maintaining a successful business requires planning. In some cases it may only be a concept in the entrepreneur's mind. A written business plan can be an invaluable business tool that the entrepreneur can use to identify and exploit opportunities. It is also helpful in anticipating problems and developing strategies for avoiding or minimizing those problems.

Preparing a comprehensive, written business plan has a number of significant benefits to the entrepreneur including:

- Forcing the entrepreneur to establish goals.
- Focusing the entrepreneur's attention on all aspects of the business (sales, finance, organization, etc.)
- Forcing an entrepreneur to consider the interrelationship of each facet of the business. For example, is the plant large enough to satisfy the projected sales demand? If not, what will it cost to build additional capacity and when will it be needed?
- Giving the entrepreneur the background for making decisions that are consistent over time and that consider the ultimate goals and objectives of the business.
- Presenting an overview of the projected business and information that prospective investors and lenders might want.

The intended use of the plan will influence what format, layout and content are chosen. For example, the sequence and emphasis of the plan may differ when requesting friends or relatives to provide seed capital and/or requesting a bank to provide a working capital line of credit. A venture capitalist may be most interested in long-term return on capital and the price earnings ratio at the time of initial public offering. Banks, on the other hand, may be most interested in the cash flow available to service debt. The plan may be packaged so that the section of most interest to a particular reader can be placed first. Graphics make many ideas easier to understand. Financial information, for example, may be the best communicated with bar or pie chart. Flow charts may make it easier to understand the steps of manufacturing or design process. Such diagrams make the plan more inviting and easier to comprehend.

While each business plan will be different, depending on the business and what the plan will be used for, the following is an outline of items that might be addressed in a business plan.

**GOALS AND OBJECTIVES**

- A statement of the goals of the company.
- A list of specific objectives and when they will be accomplished.

**PRODUCTS AND SERVICES**

- Description of the product line. If the company plans on developing more than one product, how will the promotion and manufacture of one affect the other?
- Proprietary position - patents, copyrights, trademarks, and other legal and technical considerations.
- Requirements of regulatory agencies.
- Comparison of competitor's products.
- Break-even analysis by product.

**UNIQUE COMPETITIVE ADVANTAGE**

- Management experience or skills.
- Product superiority or price advantage.
- Market advantages, such as large contracts with a major customer or supplier.
- Other advantages, such as proximity to a large market, or proximity of labor supplies, raw materials, energy, transportation or inexpensive labor.

**MARKET ANALYSIS**

- Description of the target market and an approximation of its size and growth potential.
- Site selection for retail outlets - traffic count, disposable income and other demographic characteristics of surrounding area.
- Industry trends.
- Competitors and analysis of their strengths and weaknesses.

**MARKETING STRATEGY**

- Specific goals and timetables for market penetration.
- Overall strategy and how this will be affected by the reactions of competitors.
- Relationships with suppliers and distributors and any distribution or licensing agreements.
- Selling policy - selection between sales and leasing, credit payment terms.
- Service arrangements, product support and customer training, and warranty terms.
- Promotion and advertising plans.
- Pricing policy - whether it will be determined by competition or by cost of goods, and how market forces will affect pricing.
- How products will be distributed - licensing, franchising, agency contracts, wholesaling retailing or direct sales.

**MANUFACTURING PROCESS**

- Materials and components required for products.
- Sources of supply and alternatives if materials become unavailable.
- Production methods.
- Condition of production facilities and equipment.

≡ **SMALL BUSINESS DEVELOPMENT CENTER GUIDELINES FOR ENTREPRENEURS OR START-UPS SEEKING CAPITAL**

- Environmental factors restricting use of chemicals, disposal of wastes, pollution and noise control, potential impact.
- Labor requirements and effects of strikes, collective bargaining and turnover. How will changes in compensation structure or productivity affect the business?
- Availability and cost of transportation, energy and other utilities.
- Quality assurance products.
- Plant capacity and long term alternatives.

**MANAGEMENT PLAN**

- Form of business organization.
- Board of Directors composition.
- Detail of stock ownership, names of stockholders and shares owned. Potential ownership, warrants, rights, and options should be also discussed.
- Organization chart and responsibilities of officers.
- Experience and background of principles and key employees and any potential problems, such as agreements not to compete.
- Investment involvement of principal.
- Staffing plan/number of employees. Include plans for additions of employees, when they will be needed and the qualifications that will be required.
- Space requirements, facilities plan and planned capital improvements.
- Operating plan and schedule of upcoming work for next one to two years.
- Internal control, accounting, inventory and management reporting systems.

**FINANCIAL DATA**

- Current audited (or revised) financial statement, if available.
- Three to five year financial projections (first year by quarters; remaining years annually) including profitand-loss statements, balance sheets, cash flow statement and capital expenditure estimate.
- Explanation of projections (assumptions).
- Start-up, and research and development costs.
- Analysis of capitalization decisions, such as whether to lease or buy equipment.
- Analysis of fixed costs versus those that vary with business or production level.
- Key business ratios with comparison to industry averages.
- Access to funding sources, such as industrial revenue bonds and public sector financing.

**FINANCIAL DATA CONTINUED**

- Analysis of cost alternatives, such as subcontracting for production of components rather than producing them in house or contracting with outsiders for financial or other services.
- Explanation of use and effect of new funds.
- Potential return to investors compared to competitors and the industry in general.

**EXECUTIVE SUMMARY**

If a business plan will be used for presentation to potential lenders or investors, it should be prefaced with an executive summary. This summary is to give the reader an overview of the business plan. It must be well written, brief (two-to-five pages at the most) and to the point. It should include the following:

- Purpose of business plan – for example, to attract investment from venture capitalists.
- Business description; name, location and plant description, products, market and competition, and management expertise.
- Business goals and timetables.
- The market and competition, both current and anticipated, and a discussion of market share.
- Summary of your market strategy.
- Listing of key management personnel and their experience.
- Summary of the unique advantage that will contribute to the success of the business.
- Summary of financial needs and application of funds.
- Payback period, earnings projections and potential return to investors.

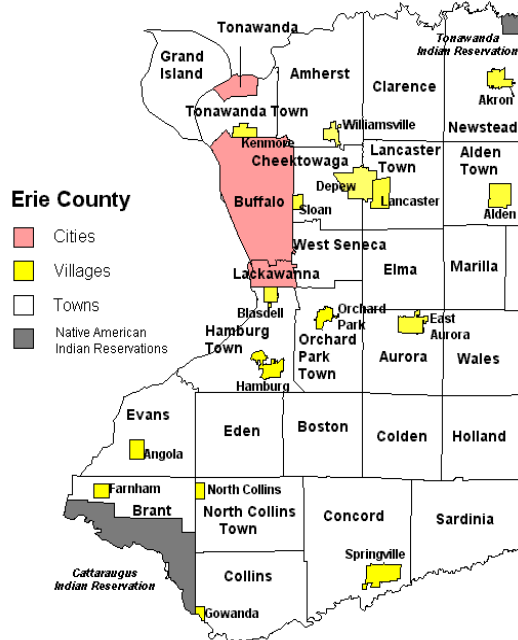

**ADDITIONAL INFORMATION**

Although the summary should ideally catch the reader's eye and induce the individual to read more, it will be the only thing some of them read. As a result, it should be present your company to potential lenders and investors not only clearly and concisely, but also completely.

If you use the business plan as the basis for applying for a loan from the bank, you may be required to provide additional information about yourself and your personal financial situation. Such additional information items may include credit reference.
